

UNIVERSITÉ CÔTE D'AZUR

A cluster of the leading HE & R institutions in the French Riviera to become a new integrated university

UCA is

- A middle-size and agile university
- About **30,000 students** (national diplomas, university diplomas, BSc, MBA, etc.) of which:
 - 1,700 Ph.D. students, 9,000 Masters students, 18,000 undergraduate students.
- A research intensive university
 - 76 national and 48 international prizes and awards.
 - 59 patents and 37 licences.
 - 53 national funded projects.
 - 100 European funded projects, including ERC grants.
 - 4218 persons involved in research in A or A+ ranked laboratories.

UCA is

- defining a new partnership between the public and private sectors within the Côte d'Azur region
- An engine for its territory, through
- Close links with the local authorities
 - active collaboration to ensure that all regional actors are working together towards the same goals
- Strong cooperation with companies and socio-economic leading institutions in French Riviera
 - new type of partnership with companies, based on a greater sharing of resources and a convergence in our objectives

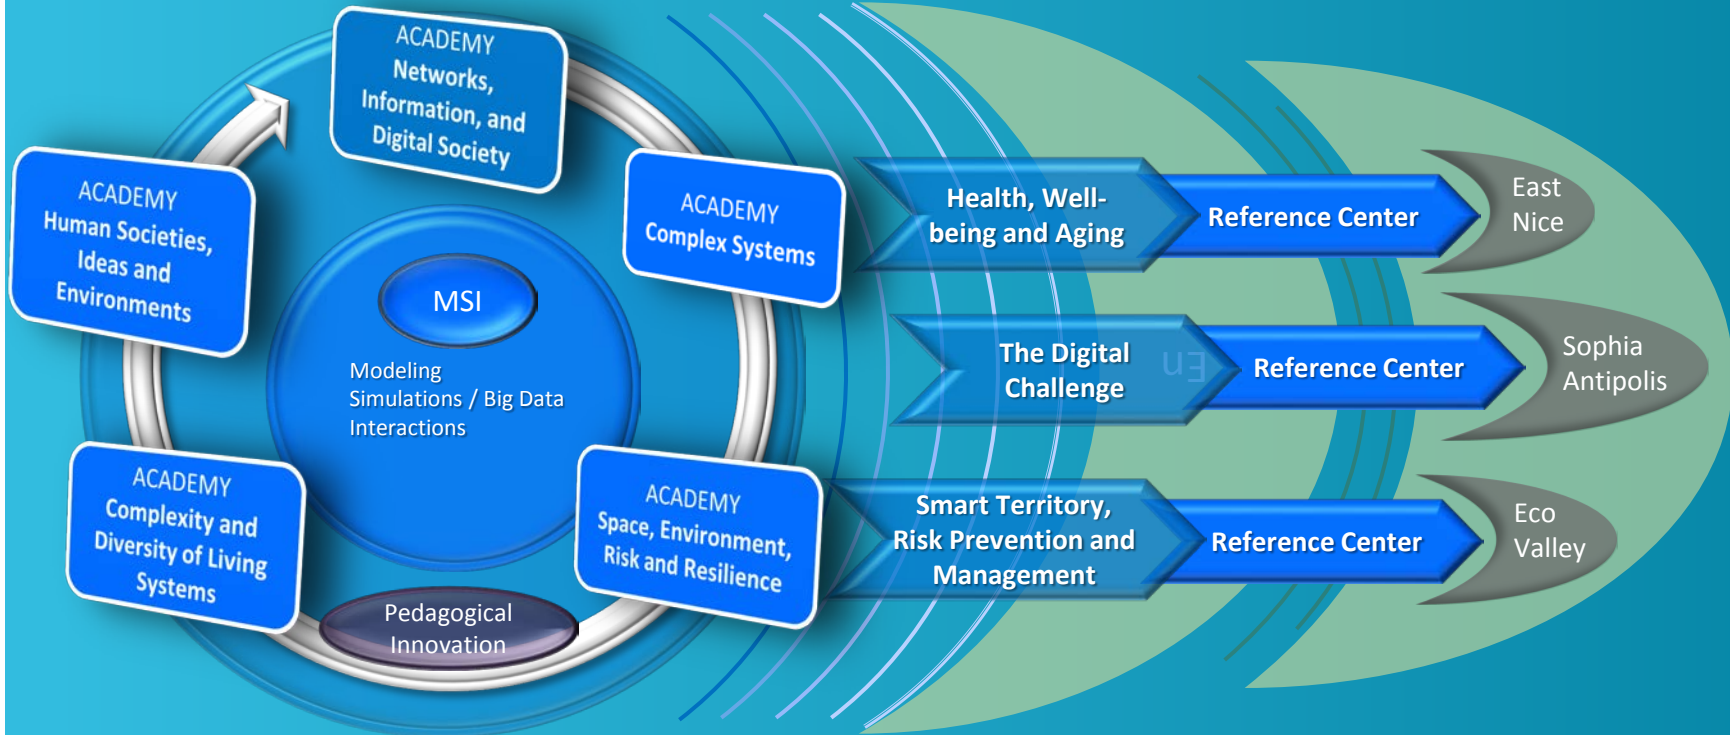

Make the UCA a motor of growth for the region

Scientific Challenges

Societal Challenges

Territorial Challenges

UCA's strategy for internationalization

- Creating thematic networks on our societal challenges with leading institutions sharing the same ecosystemic approach
 - Big data, smart cities, e-health, health and environment...
- Creating regional hubs in strategic targets, in coordination with the other actors in French Riviera
 - (research, training, innovation)
- Follow and feed the directions chosen at the international level (international organisations, consortia...)

UCA^{JEDI} will enable us to give shape to those ambitions.
